

LAC - City Airport survey

Nick Duriez of City Airport has asked that we send this out to all our members. This is our chance to influence the running of the airfield that most of us use most frequently.

“We are running our annual customer survey and are aiming to receive as much feedback as possible. I would be grateful if you could spread the word to help encourage all the airfield customers to contribute. Once the survey is complete, all the feedback received will be analysed and used to shape the future development and improvement of the facilities, services and events on offer at the Airport and Runway 26 Café/Bar.

Details of the survey are also shared with the Deputy Chairman within Peel and so all feedback is very important to us. I'd appreciate your assistance in spreading the word and helping to encourage as many entries as possible.
