

# HARWARDEN RMZ

**The details of the RMZ at Hawarden are in the AIRAC which becomes valid on March 30<sup>th</sup> 2017.**

The zone will also be shown on the next chart update. **Skydemon** users will find that it appears on the next chart download.

If you are flying in that area you can comply with the requirements of the RMZ by either

*speaking to them on 123.350, squawking 4607 and listening out on 123.350,*

*telephoning them beforehand*

*or have a letter of agreement between your airfield and Hawarden.*

EGNR AD 2.22 will give chapter and verse.

Many thanks to the Flyer GA Forum for the heads-up.
