

The logo for City Airport & Heliport features the text "City Airport & Heliport" in white, sans-serif font, centered within a red rectangular background. A white, stylized swoosh or arc is positioned above the text, starting from the left side of the red box and curving over the top right corner.

City Airport & Heliport

This message is relevant to any pilots/tenants and businesses at City Airport & Heliport (Barton).

Leeds Radar Frequency Change - 8th December 2016.

Please be aware that the primary R/T frequency for Leeds Radar will be changing to **134.575 MHz** from the 8th of December 2016. **133.125 MHz** will be permanently withdrawn from use.

During a period of equipment configuration on the 7th of December, the secondary frequency of **125.375 MHz** will be in use. NOTAMs will advise at the time.

Regards,

City Airport & Heliport.
